## QUIZ - MATH GRADE 10

1. $(40 \%)$ Given the Function:
a. (5\%) State its domain: $\qquad$
b. (5\%) State its Range: $\qquad$
c. $(4 \%) f(x)=0, x=$ $\qquad$
d. $(2 \%) f(0)=$ $\qquad$
e. $(2 \%) f(0.9)=$ $\qquad$
f. $(3 \%) \mathrm{f}(-0.5)=$ $\qquad$ $=\mathrm{f}(\ldots)=\mathrm{f}(\ldots)$

g. $(3 \%) f(x)=-2, x=$ $\qquad$
h. $(2 \%) \mathrm{f}(2.1)<0$ True/False
i. $\quad(2 \%) \mathrm{f}(0.8)<\mathrm{f}(0.9)$ True/False
j. $\quad(3 \%)$ Where is the function increasing? $\qquad$
k. (3\%) Where is the function decreasing? $\qquad$
2. (3\%) Where is the function stationary? $\qquad$
m. $(3 \%)$ Is this function one to one? Many to one? Explain.
3. ( $40 \%$ ) Given the Function describing the temperature of a cup of coffee that was heated in a microwave. Fill the blanks.

a. (5\%) State the observed domain: $\qquad$
b. (5\%) State the observed Range: $\qquad$
c. $(2 \%)$ How many times was the coffee heated? $\qquad$
d. $(5 \%)$ What was the initial temperature of the coffee? $\qquad$
e. $(3 \%) \operatorname{Temp}(\mathrm{t})=30^{\circ}, \mathrm{t}=$ $\qquad$
f. $(5 \%)$ When does this function decrease? $\qquad$
g. (5\%) What is the maximum temperature of the coffee? $\qquad$ when was it reached? $\qquad$
h. (5\%) During the first 100 seconds, when was the function stationary? $\qquad$
i. (5\%) Write down the room temperature $\qquad$
4. (20\%) Write down a relation that is a decreasing function in the following form, make sure to choose a relation you may represent using in a grpah:

Varible: $\qquad$ units ( $\qquad$ $\longrightarrow$ Varible: $\qquad$ units ( $\qquad$ )

Graph the relation on the following graph:
